

What a WASTE!

40% of food goes uneaten
in the U.S. each year.*

THAT MEANS WE'RE WASTING:

240
POUNDS
OF FOOD
PER PERSON**

165
BILLION
DOLLARS**

300
MILLION
BARRELS
OF OIL†

Valuable nutrients could feed

25
MILLION
more Americans by reducing
losses by just 15%.*

YET, 1 IN 7 AMERICANS IS FOOD INSECURE.***

The dairy community works hard to recover valuable nutrients to feed the hungry and transform #foodwaste into natural fertilizer and renewable energy. Visit dairygood.org/sustainability to learn more.
