*December 1, 1995  
through  
November 30, 1996*

*Madison County  
Health Department*

**MADISON COUNTY HEALTH DEPARTMENT**  
 2119 Troy Road  
 Edwardsville, Illinois 62025-2572

**Message From The Board of Health Chairman:**

It gives me great pleasure to present to you the annual report for the Madison County Health Department. This new department reflects the commitment the Madison County Board has to ensuring good health for its citizens. The development of the Health Department has been a major accomplishment and we look forward to providing the benefits of health protection, promotion, and education to all of you.

Sincerely,

Rudolph J. Papa, Chairman

**To The Citizens of Madison County:**

On the 19<sup>th</sup> day of June, 1996, with the words, "What is well begun is half done," Dr. John Lumpkin, Director of the Illinois Department of Public Health presented the County Board with documentation certifying the Madison County Health Department. This certification serves as a welcome mandate for the Department to provide core public health programs.

While year one was a period of assessment and planning, year two has been one of program implementation and policy development. The department expanded clinical programs to include immunizations and communicable disease investigations. Environmental health programs were instituted and food establishment inspections began. The Health Promotion Program provided valuable support to the community in the area of health education. In the upcoming year, the Department will continue to assess current programs and develop new ones.

Achieving state certification this past year was a major step for this department. We are confident that it is just the first of many, as we strive to provide you with the best health protection programs possible.

Sincerely,

Donald R. Brannon  
Administrator

**MISSION**

It is the mission of the Madison County Health Department to provide those programs and activities that are necessary and desirable to assure the conditions in which people can be healthy.

The Department shall carry out its mission through: regular and systematic assessments of community needs; policy development based on knowledgeable and scientific principles of health; and assuring these actions by regulations or direct services.

**ENVIRONMENTAL HEALTH SERVICES DIVISION**

The goal of the Environmental Health Services Division is to protect the citizens from contracting and transmitting foodborne and waterborne diseases, preventing the transmission of disease organisms, and to educate food service operators and consumers about safe food handling practices.

**Potable Water Supply Program**
