Madison County
Health Department

To The Citizens of Madison County:

Providing public health services that promote wellness and protect the health and safety of the community is the goal of the Madison County Health Department. This report summarizes the services provided by the Department and the occurrence of specific diseases. In the coming year we will continue our efforts to prevent the spread of disease, protect the wholesomeness of food and water, and to promote the health of children and adults.

Attainment of our goal will be accomplished through coalition building and collaboration with health professionals, health care agencies, schools, local and state officials, and most importantly, you, the citizens of Madison County.

We look forward to serving you as we strive to provide the best health protection programs possible.

Sincerely,

Donald R. Brannon

HEALTH PROMOTION SERVICES DIVISION

The goal of Health Promotion Services is to educate citizens regarding the positive effects of a healthy lifestyle and to encourage them to alter lifestyles through changes in behavior. Lifestyle changes are facilitated through the combination of efforts to enhance awareness, change behavior, and by creating environments that support good health practices. Health Promotion Services administers programs with schools, community organizations, collaborations, citizens, state and regional programs, coalitions, and media. This year the primary health promotion focus has been developing and implementing a comprehensive tobacco prevention program and child passenger safety program.
