

Reason for contact (point):

**Driver is Deaf**  
**or**  
**Hard of Hearing**

Driver has special communication needs.  
 Please read the back of this card for  
 communication assistance

### Deaf Person

I communicate with the following methods (driver point to method):

- American Sign Language
- Pen/Paper
- Lip Read and use what hearing that I have
- I need a sign language interpreter

### For the Police

Here's how, the police can help:

- Try to eliminate background noise
- Do not cover your mouth with hand or paper
- Don't shout - use a normal voice
- Speak slowly, clearly and be patient face to face
- Be sure there is light for me to see you but not in my face
- If use sign language, connect to a video remote interpreting service 

### Tips for driver using this Visor Alert:

- Attach the Visor Alert to the vehicle sun visor using a binder clip.
- If you are stopped by an officer, pull your visor down and put your hands on the steering wheel.
- When the officer walks up, point to your ear and the Visor Alert.
- Remove Visor Alert and show this side to the officer so he knows how best to communicate with you.
